

Fully Funded Subject Training KS3/4

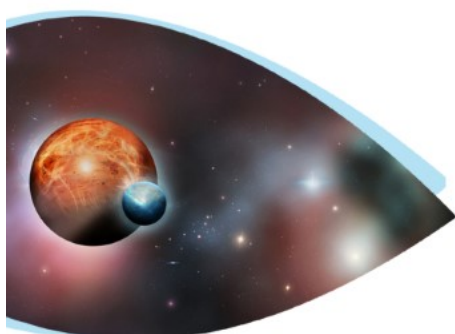

PHYSICS

With Carmel College Teaching School Alliance
and the Institute of Physics

Do you want to improve your Physics subject knowledge?

New cohort starting September 2016

As part of a national initiative, Carmel College Teaching School Alliance is offering non-specialist teachers the opportunity to upskill their ability to teach Physics. This is an ideal opportunity for Science departments to develop their capacity for teaching Physics by training with other non-specialists or non-scientists to teach Physics up to GCSE.

The course will be led by Physics specialists in partnership with the Institute of Physics.

Professional accreditation and a £500 bursary is available.

All training is free to schools and participants.
